

# 2006 River Advocacy Plan

This is the plan approved by the CRA Board of Directors in April 2006. It identifies “hotspots” in the River that will be evaluated and addressed by our aggressive advocacy program

# The Problem

- Nutrients
- Fecal Coliform
- Suspended Sediments

# The Source

- Ag
- Septic
- Sewage Treatment Plants
- Storm Water

Focus on biggest problem

Where we can make a difference

# The Plan

- Ag BMPs
- New Septic – requirement in Kent & QAC
- Hot Spots – Confirm, take action, reevaluate – begin in upper Chester

# Continuing Programs

- Corsica
- Chestertown Storm Water
- Unicorn Lake
- Critical Area Violations
- Chester Testers
- Responding to Citizen Complaints
- Being on the River
- Keeping Informed on County Ordinances Affecting the River
